

ADULTS FOR FUTURE

WHAT IS ADULTS FOR FUTURE?

Adults For Future is a European project created to involve adults people in ecological practices through activism. Furthermore, the project intends to support educators who work with the elderly with dynamic and innovative tools.

THE PROJECT

LAST TPM IN CYPRUS

In April 2024, our team gathered in Nicosia, Cyprus, for the final transnational project meeting. During this meeting, we reviewed all the results achieved up to that point and identified areas that still required attention. We placed great emphasis on the project's exploitation and sustainability, and strategized ways to ensure its continued success even after its completion. One of the highlights of our meeting was the lively discussion on organizing our upcoming Multiplier Events in each partner country. These events are crucial for disseminating the project results and engaging stakeholders on a broad scale.

OUR MULTIPLIER EVENTS

ITALY

Polygonal has engaged the local community of psychologists, adults, adult educators, as well as young adults from the two local refugee centres to learn about the materials and results developed by Adults for Future. Additionally, Polygonal has prepared a shared meal and created a small garden in a corner of the public library.

CYPRUS

Eurosucces Consulting organised an Event in its premises in Nicosia, Cyprus. The event had the title “The Fake News in a Digital World” with speakers from media industry and journalism. The event was about the recognition of fake news mostly on the internet and their avoidance. At the end, there was a discussion with the audience and the experts about their experience with news and media.

PORTUGAL

The Portuguese multiplier event, organised by **RightChallenge** in Vila Nova de Gaia on May 23, 2024, was a great success in raising awareness about green empowerment for older generations. Twenty adult educators, psychologists, and other related professionals had the opportunity to learn about the Adults for Future materials and participate in an exciting upcycling workshop.

SPAIN

DomSpain organised a successful multiplier event in Reus, involving community members in discussions and activities on sustainable living and environmental education, including a soap-making workshop. The event promoted intergenerational learning and highlighted the contribution of older adults to society.

ADULTS FOR FUTURE RESULTS

The Adults For Future website is up and running in 5 languages, giving you an overview of the project as a whole and inviting you to read the latest news about the partnership's progress. **Visit [Adult For Future](#)**
