| Learning Setting and Activity Description              | <ol style="list-style-type: none"><li>1. The participants will be divided in 4 groups covering the following topics:<ul style="list-style-type: none"><li>• Heatwaves</li><li>• Cold spells</li><li>• Floods</li><li>• Wildfires</li></ul></li><li>2. Each group is invited to research and think creatively of small habits that people can have to minimize the impacts of the above-mentioned extreme events. These measures can be preventative or of mitigation. Each group should present at least 5 small solutions to the problems and develop a simple infographic to present.</li></ol> |

|                                                |                                                                                                            |
